

*Legends in their own lifetime!*

*Legends of the South African truck industry who have been involved in some of our history for more than 20 years. Some have even co-founded the industry and have been involved for more than 40 years. All enjoyed an evening of fun and laughter at a formal dinner held recently to commemorate some of the legends involved from the 50 years of the industry and also made us the go-to place to attend the 20th meeting.*

## Paramount Trailers' new manufacturing plant on schedule

**W**arren Marques, MD of Paramount Trailers, says they are extremely pleased with the progress they have made over the past few months on the development of their new manufacturing plant. "The development is running on schedule and we are excited at the prospect of relocating in 2013 and being able to expand our operations."

Paramount Trailers is one of South Africa's leading and established commercial trailer manufacturers, and the new facilities will be well worth the investment.

"The new plant is state-of-the-art and will be equipped with the very latest equipment, enabling us to im-

prove our efficiency and increase our production."

The MD stresses that the company will never forget where it has come from, and having a finger on the pulse of the company is of the utmost importance to him.

The 57 000m<sup>2</sup> of prime real estate on the R59 (south of Johannesburg)

is a bold statement from Paramount Trailers, says CEO and founder, Fernando Marques, proudly. "I believe that it is the right time for us to be taking this step forward and it will play an important role in allowing us to continue to differentiate ourselves from our competitors."
